

Document 1

**Virtual meeting of Kingmoor Incinerator task force held at 1000
Wednesday 17/06/20.**

Report from Cllr Mick Jones

Present at the meeting beside myself (representing Kingmoor PC) were representatives from Local residents associations including Crindledyke, Lowry Hill, Newfield and Stanwix Rural PC. Gareth Ellis from Carlisle CC was present as were 2 experts from Ricardo Environmental Engineering who will be representing Carlisle CC in discussions with the Environment Agency.

At this stage it was only possible to discuss issues emanating from the plant itself that is mainly pollution from its operation. This could include noise, particulates, odour, dioxins etc. More detail of what is and is not possible to comment on can be seen in document 2.

What it is important for the PC to ascertain is the concerns of parishioners with regard to the issues outlined above and in document 1. These can then be expressed at the next meeting which is likely to be in the next few weeks. The consultation period (3 weeks) is likely to start around 24th July.
